

Listening Session Questions

Think back to what speakers discussed. Based on what we've learned yesterday/today and your own experiences, what do the Three A's of Housing mean to you?

Accessibility: What are your thoughts about there being unequal access to housing opportunities in Alexandria?

Affordability: Are you willing to support new tools to create affordable housing? What are your thoughts about the issues raised by the speakers?

Availability: Speakers talked about the fact that housing production has not kept pace with the increasing demand, raising the cost of housing for everyone. What are your thoughts about the goal of increasing the housing supply in Alexandria?
