

Confederate Streets Address Analysis

Table and Map Information:

Confederate Streets were assembled from the 2021 "Inventory of Confederate Street Names in Alexandria, VA" provided by the Office of Historic Alexandria (OHA). The research is ongoing; therefore the map only contains confirmed confederate street names (**Full Street Name**) and does not include streets that are actively being investigated by OHA. Streets identified in the 1953 ordinance are in blue. The **Length (Miles)** column is based on the street length in one direction and one lane only (Beauregard for instance has two lanes running North South in which case only one lane was counted in the length) Addresses points along confederate streets were divided into **Front door addresses** and **Units** columns where the front door is the main address of a building and units are the subunits of the front door address. Parcels (land only) addresses were not included in the analysis. The type of addresses (both front door and units) were compared to the building use table are divided among the eight major building uses (**Residential, Commercial, Mixed Use, Institutional, Industrial, Transportation, Mass Assembly and Other**). The **Total** column is the total addresses of the **Front door addresses** and **Units** columns or the eight building use columns (**Residential, Commercial, Mixed Use, Institutional, Industrial, Transportation, Mass Assembly and Other**) by confederate street name.

Full Street Name	Length (Miles)	Front Door Address	Units	Residential	Comercial	Industrial	Institutional	Mass Assembly	Mixed Use	Other	Transportation	Total Addresses
