TODAY!

- Volunteer Hotline Advocates are at the core of our program and our 24/7 Sexual Assault Hotline could not function without them.
- Volunteers accompany survivors to the hospital or police station and provide crisis intervention and resources over the phone to survivors of sexual assault and their loved ones.
- Volunteers at the Safehouse provide crisis counseling to survivors residing at the shelter and answer a 24-hour crisis hotline.
- Volunteers must complete a 40-hour training to learn the life-saving skills necessary for crisis intervention.
